## **Connecting your MOJA Chromebook to non-School Wi-Fi**

\*\*\*Please note MOJA Chromebooks do not have mobile carrier wireless Internet access and will only connect to an existing Wireless network such as your home, library, etc... Please make sure your connection is from a known safe and secure source\*\*\*\*\*

<u>Step 1</u> - Power on Chromebook until you reach a logon screen that should look like the Figure below.

(î.	MOJA Connected, secured								
(i.	XFINITY Secured								
			Co	nnect					
¶.	xfinitywifi Open								
(h.	CBCI-6605-2.4 Secured								
(h.	CBCI-6605-5 Secured								
(a	DIRECT-BC-HP ENVY 5660 series								
Network & Internet settings Change settings, such as making a connection metered.									
<i>(i</i> Wi-Fi		r∯ Airplane mode	((၂)) Mobile hotspot						

NOTE: Your wireless network should be in the list.

3013 NW 11<sup>th</sup> Street, Fort Lauderdale, FL 33311

**<u>Step 2</u>** – Click on WiFi Icon and choose your Wireless network.
